

## New Patient Special

- If you are getting the right nutrition?
- Is your spine and nervous system working at its best?
- Are you deficient in nutrients?
- Is your body toxic and holding you back from your full health potential?
- Are your supplements working or are you wasting money?
- Are you getting stronger or weaker every day?

Now I have a program to give you these answers!

The Get Well for Life program is easy to implement, step by step, applied Wellness, Prevention & Lifestyle improvement Program. It provides Nutrition Response Testing analysis along with instruction and coaching so you know HOW to move towards health EASILY, GRADUALLY, and COMFORTABLY.

This program combines research from genetics, nutrition, and exercise with the science of empowering personal change.

Nutrition Response testing is a non-invasive system of analyzing the body to find the toxins and deficiencies that cause the body to move away from health. The body responds to the procedure reliably and consistently. This feedback is so precise that it opens the door to a safe and lasting healthier life. Dr. Theresa has used Nutrition Response Testing to successfully help many of her patients to overcome a wide range of health issues, even where everything else has failed. The body has the full potential to fully repair itself, when given the right nutrients.
